[**Note:** Under DOO 10-4, EDA has been delegated authority by the Secretary of Commerce to administer the Public Works and Economic Development Act and pertinent provisions of the Trade Act, among other matters. This includes grants administration for such programs. In addition, NIST and NOAA are delegated through DOOs 30-2A and 10-15, respectively, the authority to perform functions in the Federal Grant and Cooperative Agreement Act of 1977 (Public Law 95-224) with regard to making grants and cooperative agreements.]

b. The Grants Officer may approve exceptions on a case-by-case basis, regardless of the amount of Federal funding. The regulation stipulates that an exception made on a case-by-case basis will only apply to a single award.

[**Note:** This delegation of authority may not be redelegated by the Grants Officer. 15 CFR § 14.4, Deviations, states, “However, in the interest of maximum uniformity, exceptions from the requirements of this part shall be permitted only in unusual circumstances. See Chapter 10, Section A.10., of this Manual for minimum documentary information which must be included in the official award file.]

Office of Acquisition Management** is delegated the authority to develop, issue and oversee implementation of policies and procedures for the administration of DOC financial assistance programs (including grants, cooperative agreements, loans, and loan guarantees) and to oversee implementation of DOC's audit follow-up program with respect to financial assistance programs. The OAM Director also serves as the Debarring and Suspending Official for DOC nonprocurement actions, and as the Chair of the DOC Grants Council, which is the governing body for enterprise wide policy development and implementation in the DOC for Federal assistance programs. DOO-20-26 further delegates financial assistance functions to GMD. The following functions will be performed by GMD.

10. Prepare, issue, and maintain this Manual and interpret its policies, standards, and procedures;

**C. Office of General Counsel.** Pursuant to DOO 10-6, the functions of the OGC include the preparation or examination for legal form and effect of all instruments entered into by the DOC, including grants and cooperative agreements. These agreements create legal rights and obligations between the government and the recipient. Grant and cooperative agreement instruments are authorized under specific statutory authority, require the issuance by publication in the *Federal Register* of rules and notices and are bound by administrative regulations, Departmental policies, executive orders (EOs), and OMB Circulars. The award, administration, and audit of these agreements may present legal issues, rights, liabilities, and the possibility of disputes which could benefit from timely legal advice and guidance.

1. The OGC provides legal support in the following financial assistance related areas:

- a. The Office of the Assistant General Counsel for Legislation & Regulation (AGC/L&R) coordinates and manages compliance with regulatory requirements. This includes coordination, clearance, and submission of items proposed for publication in the *Federal Register* in accordance with the requirements of DOO 10-6, Section 4.01, Subsections a. and g.
- b. Within the Office of the Assistant General Counsel for Finance and Litigation (AGC F&L), the Federal Assistance Law Division (FALD) provides financial assistance related legal

representation, advice, and support to Grants Officers and Specialists, Program Officers, OAM, the Nonprocurement Debarment Official, the CFO/ASA, and others. The following functions are performed by FALD:

- (1) Legal representation before the Government Accountability Office and administrative tribunals. FALD also provides direct support to the Grants Officer in Federal court litigation regarding the award, administration, and cost disallowance under grants and cooperative agreements;
- (2) Legal analysis to Program Officials and Grants Officers of proposed legislation, authorizing statutes and appropriations acts, including implementation by regulation, for assistance programs;
- (3) Participation, as appropriate, in compliance reviews, task force groups, or other assessments to ensure compliance with all laws, executive orders, regulations, and policies governing DOC financial assistance.
- (4) legal advice and services to the Debt Workout Groups in accordance with the DOC Credit and Debt Management Operating Standards and Procedures Manual, including assistance with final terminations, settlements, compromises of claims, and referrals of claims to the Department of Justice for collection. The General Litigation Division (GLD), within AGCF&L, also provides legal advice and services relative to debt workout, debt collection, bankruptcy, and, where litigation is a possibility, compliance with environmental laws (e.g., the National Environmental Policy Act of 1969 and state analogs, and the Comprehensive Environmental Response, Compensation and Liability Act of 1980). Coordination with GLD is generally obtained by FALD.

**Note:** The EDA Chief Counsel's Office and EDA Regional Counsel provide direct supporting legal services with respect to grants and cooperative agreements to EDA program and grants officials. Therefore, references to FALD throughout this Manual generally include EDA counsel with respect to EDA programs. FALD assists, reviews, and provides oversight of EDA counsel's legal advice and guidance on DOC and government-wide requirements.

2. The following decisions or actions raise significant legal issues and therefore require FALD clearance:
  - a. Proposed rules, interim rules, final rules, *Federal Register* notices of availability of funds, Federal Funding Opportunity announcements, annual solicitations, and requests for proposals relating to financial assistance;
  - b. Notices of nonprocurement debarment or suspension, determinations, and settlements under 2 CFR Part 1326; and

c. Audit appeal determinations under DAO 213-5, “Audit Resolution and Follow-Up” are submitted to FALD for review and recommendation before clearance by the AGC F & L.

3. The following actions, determinations, and/or documents, for which decision-making authority rests with the responsible Program Official, Grants Officer, or the Director, OAM, require FALD review and opportunity to comment:

a. Application kits/packages, technical evaluation forms, and conflict of interest forms for reviewers. This includes other documents which establish procedures for awards under a financial assistance program;

b. Packages summarizing the competitive review of discretionary funds in accordance with Chapter 8, Section C, of this Manual. These packages should be reviewed by FALD as early as possible prior to approval of awards;

c. Proposed financial assistance competitive awards where the Federal funding is more than \$100,000 and all noncompetitive awards. This includes all amendments that accumulate to more than \$100,000 in total award funding or add or change the scope of work.

(1) OGC will consider changing the \$100,000 threshold for legal review of competitive awards on a program-by-program basis. OGC will also consider changing the requirement for legal review of all continuation amendments under multi-year awards, as appropriate. Grants Officers may submit a written request setting forth a justification for changing the threshold to the Chief, FALD, who may provide written approval of such a request when warranted. Contact FALD for further information.

**Note:** Chapter 20 of this Manual provides Guidance on multi-year funding procedures.

d. Interagency or other special agreements (IAAs) executing the transfer of funds in or out for the award of a grant or cooperative agreement. IAAs can include memoranda of agreement, memoranda of understanding, joint project agreements, interagency purchase orders that document both parties’ acceptance, or any other document that details the terms of an agreement and the parties’ acceptance. Agreements can transfer funds from one party to the other, bind one or both parties to commit funds or resources to a grant or cooperative agreement, or not involve any resources but describe specific responsibilities under the grant or cooperative agreement;

e. Nonresponsibility and high risk determinations regarding proposed applicants selected for funding;

f. Notices of suspension or termination of awards;

g. Replacement grantees, assignments, and novations, recipient name changes; and

h. Questions regarding selecting officials' involvement as an independent reviewer.

4. It is in the best interest of the Department that Program Officials and Grants Officers consider all legal ramifications of key decisions related to the award and administration of financial assistance. The decision-making authority rests with the responsible Program Officer, Grants Officer, or OAM. The following are examples of actions/decisions/documents regarding which FALD may, upon request, provide coordinated legal review and comment:

a. Budget certification as to the availability of funds, which shall include representations on the following matters when appropriate:

(1) time limitation of funds (annual funds vs. no-year funds);

(2) appropriations act earmarks; and

(3) any other legislative restrictions on appropriations;

b. Proposed requests for OMB clearance of information collection activities under financial assistance programs;

c. Disputes relating to the terms of the award, particularly on occasions when other parties associated with the award are represented by their own attorneys in discussions or written communications on aspects of the grant;

d. Audit resolution determinations establishing a debt, claim, or other adverse action against a recipient. FALD can also provide services as a mediator, facilitator, or third party negotiator for reaching audit resolution determinations when agreement between Grants Officer, Program Official, and OIG Auditor cannot be reached;

e. Comments prepared by DOC officials on proposed rules, interim rules, and revisions to OMB Circulars applicable to Federal assistance including, but not limited to, the award, administration, and audit of grants and cooperative agreements;

f. Congressional, Freedom of Information Act (FOIA), and executive correspondence relating to financial assistance;

g. Amendments to awards involving significant or unique issues; and

h. When the other parties under the grant are represented by their own attorneys in discussions or written communications on aspects of the grant and in other circumstances when there is a need for legal interpretation or other legal advice and any other issues with legal ramifications.

**D.
